

A map of the study area showing 31 numbered sampling points (1-31) distributed across a landscape. The map includes a river (blue line) and various land cover types (shaded areas). The sampling points are numbered 1 through 31, with some points having additional labels (e.g., 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31). The points are distributed across the landscape, with some points clustered together and others isolated.
